

**All concerned residents
and property owners
of the Antelope Valley
are encouraged to attend a**

PUBLIC MEETING

**to discuss proposed changes to
the Antelope Valley Area Plan.**

In 2009, the Antelope Valley Regional Planning Advisory Committee began discussing changes to their area plan. Those discussions have led to the RPAC's support of changes that would:

1. Lessen the Home Occupation regulations in the Antelope Valley.
2. Provide a Light Industrial area along the 395 corridor.
3. Allow for the parking of heavy equipment on large parcels in the Antelope Valley .

**The purpose of the meeting is to determine how local
residents and property owners feel about these
proposed changes. Feedback will be forwarded to
elected officials for their consideration.**

**Please attend the meeting on
September 30, 2010**

**6-8 p.m.
in the Walker Community Center.**
